## PERFORMANCE DRY COW NUTS

During the transition period, a cow experiences more stress than at any other point.

**Davidsons Dry Cow Performance** will provide everything she needs for a successful dry period, calving and transition into the milking herd, with a healthy calf and quality colostrum.

Including the unique formulation of minerals - Zinpro Availa® Zn, Availa® Mn, Availa® Cu, Biotin & Alkosel® provides:

- Optimum immune function, leading to decreased somatic cell counts, reduced blood ketones, as well as improved bone calcium metabolism and a 50% reduction in risk of milk fever.
- 28% increase in colostrum IgG concentration
- 5.5% points increase in pregnancy rates, with cows on average in calf 13 days earlier
- Increase in antioxidant status for improved immune response with Alkosel® for the cow and the calf

## CUSTOMER FEEDBACK

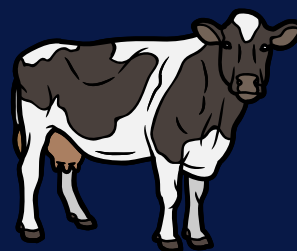

“

*Cows are cleansing much better, even cows with twins have given no problems. Milk fever has been eliminated with no cases recorded at all. Calves seem to be stronger and more vigorous at birth, getting to their feet quicker. Cows are coming onto their milk faster and we are more than happy with the changes made*

”

## CALF AND HEIFER PERFORMANCE RANGE

Our performance calf and heifer range includes a variety of feeds to support young calves with the nutritional value they require to enhance future dairy performance.

### PERFORMANCE CALF STARTER PELLETS

It's essential to provide young calves with the optimum platform in which to build on for future performance and success within the herd. Our calf starter pellets are specifically formulated with the highest specification raw materials and supplements to ensure the nutritional demands of new born calves are catered for.

### CALF ROUGHMIX PERFORMANCE

Specially formulated with the highest specification raw materials and supplements to provide a highly digestible feed with optimum palatability. Davidsons Calf Roughmix is the ultimate ration for ensuring healthy growth and development of young calves.

### HEIFER REARING PERFORMANCE

The Heifer Rearing Nut is a high specification nut that carries the nutritional capacity to transform young calves in to growing dairy heifers. This rearer nut includes all the essential nutrients required of dairy calves during this crucial stage of development.
